*"CELEBRATING 60 YEARS OF THE WOMEN'S CHARTER AND 20 YEARS OF FREEDOM: MOVING WOMEN'S AGENDA FORWARD!"*

**Together we move South Africa forward**

REPUBLIC OF SOUTH AFRICA

## 1. INTRODUCTION

The Justice, Crime Prevention and Security Cluster (JCPS) is entrusted to implement the Government's Delivery Agreement (Outcome 3) aimed at ensuring that "All People Are and Feel Safe". The Government has committed through the Delivery Agreement to reaffirm its international and constitutional obligations to take positive action to promote, protect, respect and fulfill the rights of women and children.

Women of all ages experience inequalities within and outside their homes. Moreover, they suffer from the burdens imposed by gender-based hierarchies, subordination, abuse and violence which restrict them from enjoying their human rights. The violent nature of crime affects everyone but especially vulnerable groups such as women, children, older persons and people with disabilities.

The Western Cape Development Committee (WC Devcom) is the implementing structure of the Justice, Crime Prevention and Security Cluster within the Region and it promotes the development of policies and strategies, which strengthens the criminal justice system.

The WC Devcom has resolved to coordinate a uniform programme within the Western Cape to ensure the promotion of gender equality, the protection of women's rights and the promotion of efficient, effective and speedy justice services to vulnerable women and children. A key strategy of the Women's month programme is the development of a conceptual framework, which aims to ensure that the JCPS cluster collaboratively work together in promoting gender equality within the Western Cape.

This **Women's Month 2014 Concept** sets out a comprehensive outreach strategy and campaign in line with Government's Women's Month Theme "**CELEBRATING 60 YEARS OF THE WOMEN'S CHARTER AND 20 YEARS OF FREEDOM: MOVING WOMEN'S AGENDA FORWARD!**" and it responds to the challenges facing women. The programme activities aim to educate communities and to highlight government's key legislation, policies and strategies relating to women and gender during Women's Month.

## 2. **BACKGROUND**

The Government of the Republic of South Africa declared August month as Women's month and 9 **August** is celebrated annually as Women's day in commemoration of the thousands of women who marched to the Union Building on **9 August 1956** in protest against the extension of pass laws to women and to celebrate the achievements of women.

August month also serves to remind the people of South Africa that the struggle for women's freedom, justice and equality continues in South Africa. Women's oppression and the dominance of patriarchal structures, whether within the family or in the community, is sustained largely because of their lack of access to services and resources. There is a danger that women's human rights may slide into irrelevance unless women understand their rights and Government provides an enabling environment for women to access services, which promotes and protects these rights and ensures the advancement of women within the home, community and society at large.

Women's month is particularly important to the JCPS Cluster as it allows the departments and stakeholders of the JCPS Cluster to engage with communities and to intensify public education and awareness on women's rights.
